Guidelines on the insertion and management of central venous access devices in adults

L. BISHOP*, L. DOUGHERTY[†], A. BODENHAM[‡], J. MANSI*, P. CROWE[§], C. KIBBLER[¶], M. SHANNON^{**}, J. TRELEAVEN[†]

Catheter insertion should take place in an operating theatre or similar clean environment. Bedside placement should not be performed except in an emergency, apart from PICC placement.

PREVENTION OF INFECTION COMPLICATIONS

MAJOR FEATURES COMMON TO ALL GUIDELINES

- Hand hygiene
- Maximal sterile barrier precautions
- Chlorhexidine skin antisepsis
- Optimal site care (device and site of insertion)
- Catheter removal
- Education
- Monitoring of practices
- Leadership
- Use a bundled strategy for simplicity
