

13th GAVeCeLT Congress

MONDAY, DECEMBER 9

11:00 a.m.

Opening

11:00 a.m.-12:00 p.m.

NATIONAL AND INTERNATIONAL RECOMMENDATIONS (1)

Mauro Pittiruti - **A new WoCoVA-GloVANet project: a position statement on the nomenclature of venous access devices** (15')

Giancarlo Scoppettuolo - **Critical analysis of the INS 2024 Standards** (15')

Fulvio Pinelli - **The GAVeCeLT Consensus 2024 on central venous access in intensive care** (15')

Discussion (15')

12:00-1:00 p.m.

NATIONAL AND INTERNATIONAL RECOMMENDATIONS (2)

Giada Maspero - **Good practices for venous access in adults according to the Istituto Superiore di Sanità: recommendations that will affect clinical practice** (15')

Fulvio Pinelli - **Critical analysis of the AVA 2024 consensus on peripheral venous access devices** (15')

Igor Giarretta - **A review of the GAVeCeLT Consensus 2022 on venous access in patients with coagulation disorders or being treated with anticoagulants or antiplatelets** (15')

Discussion (15')

1:00 p.m. to 3:00 p.m.

Lunch break

3:00-4:00 p.m.

THE FUNDAMENTAL ROLE OF ULTRASOUND (1)

Daniele G. Biasucci - **Abandoning radiology: using ultrasound to rule out pleuropulmonary complications after CICC insertion** (15')

Sonia D'Arrigo - **Abandoning radiology: new protocols for tip location of CICCs in intensive care** (15')

Maria Giuseppina Annetta - **Ultrasound-guided femoral access today: a revolution in indications and techniques for implantation and tip location** (15')

Discussion (15')

4:00 p.m. to 5:00 p.m.

THE FUNDAMENTAL ROLE OF ULTRASOUND (2)

Davide Giustivi - **The current role of ultrasound in the insertion and maintenance of short peripheral cannulas** (15')

Kathy Kokotis - **What training for ultrasound-guided placement of short peripheral cannulas?** (15')

Antonio Gidaro - **Tip location of CICC by transthoracic ultrasound: the state of the art** (15')

Discussion (15')

5:00-6:00 p.m.

NEWS IN THE WORLD OF VENOUS ACCESSES (1)

Giovanni Barone - **What's new in neonatal venous access according to the latest GAVePed and NEVAT recommendations** (15')

Giuseppe Capozzoli - **Central venous accesses for dialysis: innovations in recent years** (15')

Alessandro Crocoli - **What's new in pediatric venous access according to the latest GAVePed and AIEOP recommendations** (15')

Discussion (15')

6-7 p.m.

NEWS IN THE WORLD OF VENOUS ACCESSES (2)

Davide Vailati - **What changed in venous access device placement during and after the COVID pandemic** (15')

Tim Spencer - **State of the art in peripheral arterial catheter placement** (15')

Antonio Dell'Anna - **Implantation and tip location techniques for vascular access devices used for ECMO** (15')

Discussion (15')

7:00 p.m.

Closing of the proceedings

17th PICC Day

TUESDAY, DECEMBER 10

9:00 a.m.

Opening

9:00-10:00 a.m.

THE CHOICE OF PICC

Mauro Pittiruti - **The importance of choosing the right PICC: an overview of the materials and structural features available today** (15')

Sergio Bertoglio - **What is meant today by power injectability** (15')

Bruno Marche - **Choice of central venous catheter in the paraplegic or quadriplegic patient** (15')

Discussion (15')

10:00-11:00 a.m.

THE INSERTION TECHNIQUE (1)

Stefano Elli - **Transthoracic ultrasound and bubble test in PICC placement: when and how** (15')

Fabrizio Brescia - **The protocol for PICC insertion in 2024** (15')

Pietro Dormio - **PICC placement today: which training paths?** (15')

Discussion (15')

11:00 a.m.-12:00 p.m.

THE INSERTION TECHNIQUE (2)

Mauro Pittiruti - **Subcutaneous anchorage: to be used in all PICC implants?** (15')

Giancarlo Scoppettuolo - **Ten years of clinical experience with cyanoacrylate glue** (15')

Fabrizio Brescia - **Wireless technology in PICC implantation** (15')

Discussion (15')

12:00-1:00 p.m.

THE MINI-MIDLINES AND MIDLINES

Adam Fabiani - **An all-out comparison between mini-Midline and Midline** (15')

Stefano Elli - **Midline catheters today: appropriate implantation technique and tip location** (15')

Giancarlo Scoppettuolo - **Infectious risk: a comparison of short cannulas, mini-Midline, Midline, and PICCs** (15')

Discussion (15')

1:00 p.m. to 3:00 p.m.

Lunch break

3:00-4:00 p.m.

THE INSERTION TECHNIQUE (3)

Vincenzo Faraone - **The GAVeCeLT-IVAS 2024 Consensus on tip location** (15')

Maria Calabrese - **Advantages and limitations of the intracavitary ECG technique in 2024** (15')

Giovanna Passaro - **Fibroblastic sleeve in peripherally inserted devices (mini-Midline, Midline, PICC, PICC-port)** (15')

Discussion (15')

4:00 p.m. to 5:00 p.m.

PICC'S INDICATIONS TODAY

Laura Dolcetti - **Advantages of preoperative PICC placement** (15')

Sonia D'Arrigo - **Use of PICCs in intensive care: when, how, why** (15')

Davide Celentano - **PICCs, central venous access of first choice in the pediatric patient** (15')

Discussion (15')

5:00 p.m.-6:00 p.m.

TUNNELING

Matthew Ostroff - **Off-label use of PICCs as tunneled FICCs** (15')

Stefano Benvenuti - **Indications for pseudo-tunneling** (15')

Davide Giustivi - **The tunneling of PICCs and Midlines today** (15')

Discussion (15')

6-7 p.m.

ORGANIZATIONAL ASPECTS

Elisa Deganello - **Organization of vascular access teams in the extra-hospital setting** (15')

Alessandro Emoli - **Appropriate strategies for PICC placement at home** (15')

Amy Bardin - **Benefits of an intrahospital vascular access team** (15')

Discussion (15')

7:00 p.m.

Closing of the proceedings

IV Conference on PICC-ports

WEDNESDAY, DECEMBER 11

9:00-10:00 a.m.

THE CHOICE OF THE DEVICE

Mauro Pittiruti - **Choosing the most appropriate device in oncology: a recent international consensus** (15')

Fulvio Pinelli - **Comparison of PICC and PICC port, from the patient's point of view** (15')

Domenico Merlicco - **The PICC-port: first option as a totally implantable system** (15')

Discussion (15')

10:00-11:00 a.m.

PORTS AND NURSES

Andrea Musarò - **Five years of nursing experience in the port facility** (15')

Vincenzo Faraone - **A GAVeCeLT-IVAS project: a position statement on port implantation by nurses** (15')

Rita Celli - **Implantation of ports by nurses: medico-legal considerations** (15')

Discussion (15')

11:00 a.m.-12:00 p.m.

LATE COMPLICATIONS

Giancarlo Scoppettuolo - **The proper management of suspected port-related infection** (15')

Sergio Bertoglio - **PICC-port and thrombotic risk** (15')

Maria Giuseppina Annetta - **Complications associated with FICC-ports: prevention strategies** (15')

Discussion (15')

12:00-1:00 p.m.

THE IMPLANTATION TECHNIQUE

Fabrizio Brescia - **The appropriate protocol of PICC-port implantation in 2024** (15')

Fulvio Pinelli - **Venous cutdown and blind central venipuncture: two unacceptable techniques in port placement** (15')

Mauro Pittiruti - **Abandoning radiology in port, PICC-port and FICC-port placement** (15')

Discussion (15')

1:00 pm

Closing of the conference
